The credit-based RQF structure allows learners to study progressively and may help balance education with employment and other commitments.

Progression opportunities

Depending on the qualification achieved and the receiving institution's requirements, learners may be considered for bachelor's degree top-up, master's, MBA and postgraduate pathways.

A considered route to higher education

Completing a relevant qualification before progressing may offer a flexible and cost-conscious route to further study. Fees and arrangements vary by programme and provider.

QUALITY, STANDARDS & THE RQF

Ofqual is the independent government regulator responsible for regulating qualifications, examinations and assessments in England. It oversees awarding organisations and helps maintain the quality and consistency of regulated qualifications.

OTHM is a full member of the Federation of Awarding Bodies (FAB), which represents awarding organisations across the United Kingdom.
