PSBU Policy Proactivity

While PSBU does not directly engage in formal **policy making** at the local, regional, national, or global level, it plays a crucial role as a **government institution** in Cambodia by addressing community needs through research-based initiatives and partnerships. PSBU, in collaboration with **EBS Global**, actively designs and initiates **programmes** focused on improving education, entrepreneurship, and access to resources for marginalized communities. These programmes are informed by **PSBU's own research** into the unique challenges faced by local communities, particularly in rural and underprivileged areas.

Through these partnerships and research-driven programmes, PSBU contributes indirectly to policy goals aimed at reducing poverty by fostering **skill development, education, and economic empowerment** in line with the broader objectives of **SDG 1: No Poverty**. By addressing gaps in access to education and resources, PSBU plays an influential role in shaping the practical implementation of poverty reduction strategies, even if it is not directly involved in policymaking.

Updated and Reviewed by the following authorised PSBU representatives

- **Ngoun Sdechpheapkdey** - Secretary of State In-Charge of PSB University
- **Sean Borey** - Dean of Faculty of Information Technology
