

## Policy on Sustainable Investment Policy

PSBU follows a “policy-integrated approach” rather than a standalone investment policy.

Core Framework: Sustainability via SDGs. PSBU’s sustainability approach is strongly aligned with the United Nations Sustainable Development Goals (SDGs).

PSBU aims to integrate SDGs into institutional strategy, research, and operations Focus areas include: Climate action, Sustainable economic growth, Responsible consumption, and Social equity.

PSBU is guided by Buddhist principles: Compassion, Social responsibility, Harmony  
Institutional mission emphasizes: Human development over profit maximization  
Contribution to society and poverty reduction

Investments are expected to be: Ethically aligned, Socially beneficial, Non-exploitative

PSBU invests in activities that directly support sustainability goals, such as: Education for sustainable development, Community outreach programs, Environmental initiatives (e.g., reforestation, biodiversity projects)

Policy framework includes: Academic and research collaborations, Capacity-building partnerships, Technology and knowledge sharing, Multi-stakeholder engagement

At PSBU: (1) Sustainable investment is embedded in mission, partnerships, and SDGs, and (2) Investments prioritize education, community impact, and sustainability projects

This policy will be subject to annual review.
